

Enquiry form **Filter technology**

machine type			connected load		kW
throughput rate		l/min	pump pressure / machine		bar
submerged pump		l/min	oil / emulsions		
tank content		l	viscosity		mm ² /s
outlet height machine		mm	working voltage		V/Hz
potetial-free contact			control voltage		V/AC/DC
quantity of chips		kg/h	form of chips		
heater		kW	cooling		kW
transport volume		l	material		
sight glass			color		RAL

■ optional:

magnetic filtering cylinders		upstream – reasonable with ferritic floating particles
sludge box / wagon		18 – 295 l
automatic control		main switch, surge protection, motor protection switch, fuses
alert service bulletin		lack of paper, lack of cooling lubricant, max-warning, advance warning
additional pumps		when some consumer loads are used
service		maintanance contract

■ other:
